Volume 19, Edition 5

#HOPE

By Kaitlin Martin

On September 9, 2017, seventh grader, Evan Schrader was injured in a UTV accident with his younger brother, and a friend. Evan was then flown to Children’s Hospital in St. Louis, and is now in critical condition. As students arrived at school Monday, September 11, they went to the tennis court to pray for him. After lunch, the students and faculty members went down to the baseball field to create a heart, and the word “hope.” Photographs were taken to show Evan, that his fellow classmates, teachers, and coaches were caring and praying for him. Students are participating in a “change war” to help raise money for Evan, and his family. A fish fry and bake sale will also be held on September 30th at the KC Hall in Advance; 5:00-7:30pm \$10.00 for adults, 15 and under free. A *Boots ‘n Bling* dance is being held in his honor to raise funds. The father/daughter and mother/son dance is being held at the KC Hall in Advance on September 30th from 7-9 pm. There will be a \$10 cover at the door.

The Poplar Bluff Technical Career Center provides career and technical education for area students. The programs in career and technical education are highly specialized and are specifically designed to give the necessary training and skills required in various occupations. Students may receive certification in areas such as auto collision repair, automotive service technology, building trades, computer graphics and print technology, cosmetology, culinary arts, health occupations, HVACR, practical nursing, and welding and metal fabrication. Zalma has a total of eight students attending this year.
