Volume 18, Edition 31

Senior Spotlight - McKenzie Umfleet

McKenzie Umfleet is the daughter of Daphne & Rick Bollinger, and Shane Umfleet & Kristina Goolsby. She has two siblings, Elizabeth and Lindsey Umfleet. McKenzie's plan after graduating is to start working at the hospital as a tech and keep moving up through college. Her ultimate long-term career goal is traveling across the country to take care of people. In five years, McKenzie sees herself working right alongside her mother. The thing she will miss most about high school is her daily chats with Mrs. Shelby and Ms. Beck's class first thing every morning. Her activities in high school, include Yearbook, FCCLA, & Beta. She plans on going to college at TRC for general education, then SEMO for her BSN.

Senior Spotlight - Aaron Taylor

Aaron Taylor is the son of Terry Taylor and the late Rickie Taylor. Aaron has two siblings, Anthony Taylor and Tonya Taylor. After graduating, he plans to attend Southeast Missouri State University, to which he has been accepted, to pursue a Networking Degree. In five years, Aaron sees himself working in an IT position for a small business, but his ultimate long-term career goal is to be a Network Analyst for a big corporation. He participated in cross country and track for three years, FCCLA and first priority two years, and Sr. Beta and FBLA his senior year. Aaron's favorite high school memory was participating in cross country. He will miss interacting with his friends and attending technical school the most.
